## SUMMARY

---

- Motivated and skilled BTech student specializing in web development, with hands-on experience in building dynamic and responsive websites. Proficient in front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, and Express. Demonstrated ability to collaborate effectively in team settings and deliver projects on time. Passionate about continuous learning and applying new technologies to solve real-world problems.

## PROJECTS

---

### Community-verse

- Developed a full-stack website using Next.JS & TailwindCSS in front-end and MongoDB ,Firebase & Lambda serverless functions in the back-end.
- Integrated numerous features like post liking, commenting, & sharing based on MongoDB and Firebase.
- **Tech-stack** -Next.js, React.js, Node.js, Typescript, Tailwindcss, MDX, Sass, REST API's, MongoDB, Firebase, Postman, Vercel Serverless Functions, Figma(User Interface).

### Gitpic

- Fetched users data from GitHub API & Implemented it in React-based front-end.tweeted/shared by 20+ users.
- Overhauled gitpic website by redesigning landing page and improving mobile responsiveness.attracted 70% more visitors.
- **Tech-stack** - React.js,Node.js, Sass, REST API's, GitHub API, Postman, Figma(User Interface)

### Bugtrons event website

- Worked on creating a fully static website using React.JS & Bootstrap.visited by 40k+ visitors in just 1 month.
- Optimized the landing page load time from 2100ms to sub 700ms improved lighthouse performance up to 97.
- **Tech-stack** - React.js, Sass, JavaScript, Figma(User Interface)

### TweetUp

- Created an API using Node.Js, Express.JS . Uses Twitter API for collecting data of users and showing it in form of SVG, Can respond to 15k requests per sec.
- **Tech-stack** - Node.Js, Express.Js, Typescript, Twitter API

### Comprehensive Tourist Website for Indian Cities

- Developed a full-featured tourist website providing detailed information on cities across India, with integrated functionalities for booking train tickets, buses, and cabs.
- **Tech-stack** - HTML, CSS, JavaScript, React.js, Node.js, Bootstrap

## CERTIFICATIONS

---

### CODEKARO

- Successfully completed an intensive Full Stack Web Development Bootcamp, acquiring in-depth knowledge and hands-on experience in both front-end and back-end development

### CodSoft

- Successfully completed a comprehensive course in C++ Programming, gaining a solid foundation and advanced understanding of the language.

### CODING NINJAS

- Participated in a dynamic Entrepreneurship Internship program, gaining practical experience and insights into the startup ecosystem and business management.

### TATA GROUP

- Gained valuable experience as a Cybersecurity Analyst Intern at Tata Consultancy Services, developing skills in threat analysis, vulnerability assessment, and security protocol implementation.

## SKILLS

---

- **LANGUAGES:** C, C++, Python, JavaScript
- **Lib/Frameworks:** Nodejs, Reactjs, Nextjs
- **Tools:** Git, Github, Figma, Bootstrap, Tailwind-css
- **Databases:** SQL, MongoDB, Firestore

## CODING PROFILES

---

- Github
- Leetcode
- Hackerrank
